

.TC Type Domain

ccTLD / Overseas Domain (Turks and Caicos Islands)

SUMMARY:

This domain is the domain classification which "Turks and Caicos Islands" manage, and is the domain classification which use restrictions are wide opened towards the whole world, and all the men in the world, a company, an organization, etc. can register freely.

ccTLD is using the country code of two characters specified by ISO3166 in principle by the domain classification assigned to each country/area. Moreover, even if it is the domain classification to which it is assigned as ccTLD, when having not opened wide towards the world, it cannot be used a country / except the area appointed.

REMARKS:

Currently, a Japanese domain cannot be registered into this type of domain.
