

# DAWN WebService

by Nippon Data Corporation

## Web Redirect Service

### SERVICE CHARGE:

1,080JPY / 1 Affair for Initial introduction expense.  
1,080JPY / 1 Month for Monthly amount use charge.

### HOW MANY DOMAINS DO YOU HAVE?

It is one domain to actually have established the homepage, although two or more domains are owned. A domain is sometimes often secured so that the domain where the other company participates in its company may not be acquired.

### ALL ROADS LEAD TO ROME

For example, although Japanese Data owns the domain "nippondata.jp", there is no homepage actually prepared for the domains. If these domains are accessed, it is the structure by which redirection (transmission) is automatically carried out to "nippondata.co.jp". Even if it accesses which domain, it arrives at the target homepage. This is Web Redirect Service. (Although there is no Option menu about Web Redirect Service, if there is a demand, please tell without reserve.)

**NOTES...** **1.** When the domain of the redirection point is a Japanese domain (redirection from a Japanese / English domain to a Japanese domain), a redirection setup by DNS registration cannot be performed. It becomes correspondence on a browser level. (Redirection from a Japanese / English domain to an English domain is not those problem) **2.** Formal operation of a Japanese domain is started, and almost all providers are going to start redirection service in a Japanese domain, as soon as the correspondence to a Japanese domain is completed.
